FINAL ACTION

Acknowledgement is made of the amendments and declaration filed in paper no. 20 and 21 dated 7/23/03. Amendments are entered. Claims 3-9, 13, 18-27 and 30 are pending. No claim is allowed.

Since the amendment s in claims still contain the subject matter, which was rejected under 112 (1), the rejection is maintained. The "conjugated equine estrogens" do not have enough support in the disclosure. In view of Applicant's own argument that the minor change in concentration range, incomplete clinical data, and method of administering the compositions is critical in this field, there is no data for conjugate equine estrogens is the specification.

The declaration was considered very carefully. The arguments are confusing, the data in Table 1 and 4 is for application no. 09/284,147 and not this application which is 09/423,109; Table 2 is Fraser's' data, the statements in Table 3 is a known and is nothing to do with the presently claimed invention.

Since the data does not belong to 09/423,109 and the statements are confusing, all the rejections are maintained for the same reasons as set forth in our previous office action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1616

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
